trouser jeans

“A wider leg like this one has a sort of sailory, nautical feeling that I like a lot. The overall effect is really elegant.”

tip

A higher-than-usual waist gives these a flattering proportion. For a classic, refined sexiness, go for a crisp, tucked-in blouse and a fitted but boyish blazer.

skinny jeans

“I tend to wear slouchier pairs, but with pointy flats I feel comfortable in these—the look is very cute and '80s.”

tip

These are best when they hit right at the ankle. A billowy top is a good contrast to narrow pants; just make sure it skims right below the waistband—any longer, and legs can look short.
